

"Your Healthcare Company"

*(to the tune of "America The Beautiful")*

Insurance for the uninsured  
we've got just what you need:  
A really high deductible  
You never can exceed.

Our customers, we're there for you  
Your healthcare company.  
You're just the folks we love to screw  
From sea to shining sea!

That swelling in your abdomen,  
That throbbing in your wrist,  
We treat none of your symptoms  
'Cause they clearly preexist!

Our customers, we're there for you  
Your healthcare company.  
You're just the folks we love to screw  
From sea to shining sea!

You're filing your paperwork  
for coverage for your cure.  
We're canceling your policy.  
You're too sick to insure!

Our customers, we're there for you  
Your healthcare company.  
You're just the folks we love to screw  
From sea to shining sea!
